Mandela, *Opening Statement in Court*
Aung San Suu Kyi, *Freedom from Fear*

Plus, a selection of maps, political documents, and a lot of artwork

Assessment Practices

The History Department places special emphasis on the development of analytical writing skills, so the majority of assessments will support this goal. Students will write at least four short formative papers in which they confront source material on their own, before class discussion. Such papers give students the opportunity to make their own conclusions about the subject matter and to practice writing and the construction of arguments. Two longer summative papers, dealing with more substantial issues, will be due in the final quarter. Finally, some short identification quizzes will assess student note-taking and command of course detail.

Schedule of Topics and Activities

PART I -- Foundations of Modern Ideology

The Enlightenment Background

Locke, *Second Treatise of Government*

Rousseau, *Discourse on the Origin of Inequality*

Wollstonecraft, *Vindication of the Rights of Women*
